

Active Reports offers a fast and efficient solution to data analysis and management. By rendering processes transparent, it helps organisations to fully understand their business and the associated risks. A straightforward report builder, **Active Reports** runs, stores, exports, shares, and creates reports - in real time. All reports are formatted to

your specifications, so data and information is consistent and easy to access. You can even design your own reports as and when required - it's that simple to do. Further, **Active Reports** has advanced features that enhance and expand data. Essentially, **Active Reports** provides you with the information that you need to make informed decisions.

FEATURES:

- Gathers data from other VIPR systems to produce detailed reports
- Reports are available in real time
- Fine grained user management enables different permissions and roles to be set
